The State Board of Equalization met in Frankfort last Thursday. They will be in session six weeks.

Among the bills introduced in the Legislature is one disqualifying a junior senator in the Circuit Court more than once in two years.

Jon G. H. Gardner, of Elizabethtown, has been appointed State Inspector. He succeeds Judge Macay who has sent in his resignation to take effect March 31.

Suits for damages have been filed against the city of New Orleans in the interest of six of the heirs of the Italians killed in the Mafia troubles. In each case \$30,000 is asked.

Samuel Hill will not visit Frankfort on the invitation extended him by the Legislature. Mr. Hill knows doubtless that Kentucky is first for Cleveland, second for Carlisle, and that his presence would not change the situation.

KENTUCKY Republicans held their State Convention last week and agreed to go to Minneapolis as a unit for the re-nomination of Harrison. The Convention was not altogether harmonious, however, a number of the delegates being opposed to President Harrison.

The Owensboro Messenger says that Ben Terrell who figured so conspicuously in the Third Party Convention at St. Louis has been to Russellville, Ky., telling the people there that he should submit his differences to the Democratic Convention this year, and thus move along with the great procession.

At last the Democrats in Congress have begun the fight on the Civil Rights Bill of Tennessee. It is the first bill of the session and it goes into the McKinley Bill without gloves. It is to be hoped that the war will be kept up, and the Democrats in Congress, who are alive to the demands of their party will fight the material.

Is last Tuesday's issue of the Times, Maj. W. R. Kinney, of Louisville, discussed the Presidential situation at some length. The Major being an old time campaigner knows a thing or two about politics, and it is to be hoped that he will continue to take the stand this summer which would make things hot for Bro. Harrison and Kentucky Republicans.

Tanis is a good deal of complaint in Washington city over Bro. Harrison's speech. It is said that it takes a letter as long to get from there to Florida as it does to Europe. But then this is all to be changed next year, when all postmasters, and Bro. Wanamaker included, are to be retired, and their places filled by efficient Democrats.

ANNEKEN General, Hendrick, went to Louisville last week to inspect proceedings in the courts to stop the Frankfort Lottery from doing any more business in the State. It has always been a mystery as to why this Lottery concern has been able to do so much damage in Louisville and elsewhere, when its charter expired over two years ago. Surely its high time that an investigation be had.

Moving Voter has rejected all the bids put in on the unchristened brick contract. The city of Louisville wants over a million dollars for paving purposes, but the Mayor thinks the prices now a little too steep and calls for a new deal all around. Cloverport is bound to be in it taking quality and prices into consideration, we are simply Second to no city in the Union in the virtuous brick business.

The prices on real estate in this city are still going up. Last week 150 lots of ground in the extreme end of the city sold at public outcry for \$1.50 per foot. It has not been but a few years when the same piece of ground would have hired fire at \$1.00 per foot. But the demand for lots is still strong and the demand continues, the price goes up. The lot was not desirable either, but the people must have houses, and wherever they are placed, they rent readily at good figures. On most streets there has been a marked rise in the prices five years ago. Today, ground sold for \$10 per foot five years ago is still at \$40.

There is still a large number of Negroes in this county who have left the succors of their forty, inclined under any circumstances to the side issues, meetings last Sunday, according to the disinterested, were given to the Republicans.

Hon. Charles C. Fairlieh, among them in the delegation to the State Convention, was a man who showed that he could speak well, and whatever he said was well received, and Republicans were generally regarded as sound.

In the Legislature he served two terms he was the pronounced leader of his party and made a good record there.

Civil Engineer, R. N. Hudson, was in the city Saturday surveying the new kiln for the Cloverport Brick Works.

Mr. John Bell's horse became frightened Sunday afternoon, when coming down the hill by Mrs. Bowings, and upset the buggy, throwing Mr. Bell and Miss Georgia Moremen out. They fortunately escaped with a few bruises.

The horse succeeded in freeing himself from the harness and ran with all speed possible. It is supposed he landed safely at home.

The Republicans met in convention here Saturday in pursuance of a call made upon them by the chairman of the county committee, past resolutions endorsing the administration of President Harrison and endorsing him as a safe candidate for the next term.

There is no blue or blaster. The gun was cocked at the moment of discharge. Lester said he was going to shoot his gun off again. Send a copy of this to your friends at a distance.
